EDUCATION

Computer Science

Mansoura University, Faculty of Computer & Information Science

09/2019 - 06/2023

Mansoura, EG

WORK EXPERIENCE

Front End Developer (freelancer)

UpWork

01/2023 - Present

Achievements/Tasks

- **Landing Page Conversion (Figma to React):** Transformed Figma designs into a responsive React landing page. Utilized HTML, CSS, and React components to ensure pixel-perfect implementation. Integrated animations and interactive elements to enhance user engagement.
- **Content Site Development (React/Next):** Developed a content-focused website using React and Next.js. Collaborated with the client to implement a user-friendly interface for content creation and management. Implemented dynamic routing and optimized performance for a seamless browsing experience.

PERSONAL PROJECTS

threads clone (08/2023)

- I actively contributed to building a dynamic social media platform with Next.js, React.js, and Tailwind CSS. By integrating MongoDB, I played a pivotal role in delivering an engaging user experience, enabling efficient post creation and sharing. ([live](#))

amazon clone (07/2023)

- I proficiently crafted an e-commerce platform akin to Amazon, leveraging Next.js, React.js, Redux, and Tailwind CSS. This project ensures a seamless shopping journey through an intuitive interface, streamlined state management, and captivating visuals. ([live](#))

blog ai (07/2023)

- I innovatively designed a blog platform, powered by AI and developed using Next.js, React, OpenAI, and Tailwind CSS. This dynamic project highlights seamless integration of cutting-edge technologies, offering an intelligent and engaging user experience. ([live](#))

CERTIFICATES

The Ultimate React Course 2023: React, Redux & More (05/2023 - 07/2023)

I've honed expertise in React, Redux, and modern web development techniques, fostering UI/UX proficiency and efficient state management ([certificate](#))

Next.js & React - The Complete Guide (incl. Two Paths!) (02/2023 - 04/2023)

I've gained skills in React, Nextjs, TailwindCSS, Redux, MongoDB, e-commerce development, and continuous learning through courses. ([certificate](#))
