EDUCATION

Computer Scinece
Mansoura University, Faculty of Computer & Information Science
09/2019 - 06/2023   *very good*

WORK EXPERIENCE

Front End Developer (freelancer)
Upwork
01/2023 - Present
my profile
Achievements/Tasks

- **1. Landing Page Conversion (Figma to React):** Transformed Figma designs into a responsive React landing page. Utilized HTML, CSS, and React components to ensure pixel-perfect implementation. Integrated animations and interactive elements to enhance user engagement.
- **2. Content Site Development (React/Next):** Developed a content-focused website using React and Next.js. Collaborated with the client to implement a user-friendly interface for content creation and management. Implemented dynamic routing and optimized performance for a seamless browsing experience.

Front End Developer
Eskan Al Mansoura
07/2022 - 08/2022   *Mansoura*
part time
Achievements/Tasks

- In my part-time role at Eskan Al Mansoura, I excelled as a front-end developer by crafting and updating websites within a one-month timeframe. Leveraging React and Tailwind CSS, I successfully built new websites while enhancing existing ones, showcasing rapid development skills and UI/UX finesse.

SKILLS

HTML   CSS   JavaScript   TypeScript

Reactjs   Reduxjs   Nextjs   bootstrap

tailwindcss   Nodejs   Expressjs   MongoDB

prisma   Git   Communication   Teamwork

Time management   Problem-solving

PERSONAL PROJECTS

threads clone (08/2023 - 08/2023)

- I actively contributed to building a dynamic social media platform with Next.js, React.js, and Tailwind CSS. By integrating MongoDB, I played a pivotal role in delivering an engaging user experience, enabling efficient post creation and sharing. (live)

amazon clone (07/2023 - 07/2023)

- I proficiently crafted an e-commerce platform akin to Amazon, leveraging Next.js, React.js, Redux, and Tailwind CSS. This project ensures a seamless shopping journey through an intuitive interface, streamlined state management, and captivating visuals. (live)

blog ai (05/2023 - 05/2023)

- I innovatively designed a blog platform, powered by AI and developed using Next.js, React, OpenAI, and Tailwind CSS. This dynamic project highlights seamless integration of cutting-edge technologies, offering an intelligent and engaging user experience. (live)

CERTIFICATES

The Ultimate React Course 2023: React, Redux & More (05/2023 - 07/2023)
*I've honed expertise in React, Redux, and modern web development techniques, fostering UI/UX proficiency and efficient state management. (*certificate*)*
